SimilarWeb comparison

Direct

Almost 23 percent of our traffic comes through direct means. Whereas this isn't on the same level to CoinDesk, you've got to remember that they have been going a lot longer than we have. That being said, we are rapidly catching up to them.

Referrals

Referrals are the best means of getting traffic to our website. Currently, just under 45 percent of our traffic comes from referrals, compared to CoinDesk who get under 5 percent of their users through this means of traffic.

Search

With search, we also perform well with around 23 percent of our traffic coming different searches.

Social

Social media has been around for a while now and it is a means of traffic for millions of companies. For us, just over 7 percent of our traffic comes from social means which is just more than CoinDesk.
